

# WMQG - March 14, 2019

I have provided the white background fabric. You will need to supply yellow and pale blue fabrics (4-4 inch blocks of each) to make a total of 16 squares. Place a white fabric on top of each yellow and blue fabric. Sew 1/4 inch on each side of a drawn diagonal line to create half square triangles. Press to the darker fabric. Once you create your 16 squares you have to refer to the picture for proper layout.
